Green Laser Level 360° Horizontal and Vertical 50 m

Brand: MEDID

Reference: EDM 19952

Green laser level 360° horizontal and vertical with a maximum range of 50 m, precision ± 1.5 mm every 5 meters, IP54 protection. Works with included AA batteries and offers up to 7 hours of continuous use.

Description

Green 360° horizontal and vertical laser level with a maximum range of 50 meters, designed for precise applications in construction and installations. Uses visible ray technology in detector mode with four intensity levels, facilitating its use under varying environmental conditions. Its optical system allows clear visualization even under natural light, improving efficiency in outdoor work.

Technical Specifications

- Range: 50 m
- Protection: IP54

Offers a precision of ± 1.5 mm every 5 meters, ideal for exact alignments and topographic measurements. Works with included AA batteries, providing up to 7 hours of continuous use. Includes a rigid case with zipper for protection during transport and a $\frac{1}{4}$ inch thread compatible with standard tripods.

Its design allows applications in horizontal and vertical positioning of structures, as well as precise leveling work. It is especially useful for professionals who require high accuracy without compromising ease of use. It can be easily installed on a tripod or flat surface, allowing quick field adjustments.

Specifications

EAN	8421411025741
Manufacturer	MEDID
Long	30 m
Protection	IP54
