

Product sheet

Hex-plus tip 6 mm 2.5 cm 2 units

Brand: EDM

Reference: EDM 21778

Hex-plus tips with a diameter of 6 mm and a length of 25 mm, designed for screws with internal hexagonal head. Robust and durable construction, suitable for universal applications in standard fastening systems.

Description

The 6 mm diameter and 25 mm long hex-plus tips are designed for screws with an internal hexagonal head, providing precise and secure fit in industrial and mechanical applications. Manufactured from resistant steel, they ensure durability under demanding working conditions. Their standard format complies with DIN ISO 1173-D 6,3 norm, ensuring compatibility with conventional tip holders.

Technical Features

- Diameter: 6 mm
- Length: 2.5 cm
- Material: Resistant Steel
- Format: 2 units per blister

Their main use occurs in industrial and mechanical environments where secure and precise fastening is required, especially in assemblies that demand strength and accuracy. They are ideal for standard mounting applications with hexagonal screws.

Installation is simple thanks to their specific design which allows direct fit into the corresponding screws. The blister packaging facilitates organized storage and handling during assembly processes, optimizing work efficiency.

Specifications

Diameter	6 mm
EAN	4013288202543
Long	2.5
