Description

Programmable weekly digital thermostat with backlit LCD screen and touch buttons, designed for precise indoor temperature control. Facilitates thermal management through daily and weekly scheduling in comfort and energy-saving modes, optimizing energy consumption without compromising comfort. Compatible with heating and air conditioning systems.

Technical Specifications

- Dimensions: 160 x 18 x 100 mm
- Height: 16 cm
- Width: 1.8 cm
- Depth: 10 cm
- Protection: IP20
- Power Supply: 2 AAA batteries (included)

Its compact and elegant white design adapts to any decorative environment. Allows programming of temperatures according to usage times, improving energy efficiency. The measurement sensitivity ensures precise control of the thermal environment throughout the day.

It is recommended to install it in protected areas, away from heat or humidity sources. The setup is intuitive and allows accurate adjustments to maintain optimal temperature conditions all day long.

Specifications

High	16
Width	1.8
EAN	8412852967332
Manufacturer	Simon
Measures	16 x 1.8 x 10
Protection	IP20
