Description

Mechanical thermostat for heating with adjustable temperature range of 5 to 30 °C, two-wire mounting design and compatibility with voltages up to 250V~50Hz. Its physical mechanism allows precise temperature control in residential or commercial systems. Manufactured with a white housing and dimensions of 7 x 2.7 x 7 cm, it is suitable for installations with radiator heating or thermal floors.

Technical Specifications

- Dimensions: 7 x 2.7 x 7 cm
- Weight: 0.25 kg
- IP Protection: IP20
- Adjustable Temperature Range: 5 to 30 °C
- Connection: Two wires
- Maximum Voltage: 250V~50Hz

Its functional and simple design facilitates its use in environments where reliable thermal control is required. It is especially useful for radiator or thermal floor heating, offering an economical and efficient solution.

Installation is straightforward thanks to compatibility with standard two-wire connections. It is recommended to place it in an accessible location to facilitate adjustment of the desired level. Its white finish makes it compatible with various interior decorations.

Specifications

High	7
Width	2.7
Colour	White
EAN	8412852126647
Manufacturer	Simon
Measures	7 x 2.7 x 7
Weight (kg)	0.25
Protection	IP20
