### Description

Compact rechargeable slim mini UV 4 m flashlight with dual UV-A and white light technology of 150 lm. Designed for specialized applications requiring versatile lighting, it combines two wavelengths in a single source ideal for surface inspection or fluorescence detection. Its minimalist design facilitates transport thanks to its pocket clip and magnetic base.

#### Technical Specifications

- Length: 4 m
- High UV power: 0.5 h/4 m
- Low UV power: 2 h/3 m
- High white light: 150 lm, 2 h/18 m
- Low white light: 15 lm, 10 h/6 m
- IPX4 protection
- Rechargeable via USB-C with included cable

Its versatility allows use in laboratories, industrial inspections, and maintenance applications. The combination of UV and white lights offers greater flexibility under varying lighting conditions.

Installation is simple: just connect the USB-C cable to charge the unit. The durable design facilitates its use in demanding environments, while the magnetic base allows easy attachment to metal surfaces.
