Description

Rechargeable front flashlight mycro400 of 400 lumens with advanced LED technology, designed for outdoor and dark environment use. Provides intense and efficient lighting, ideal for workers, hikers, and professionals who require a reliable and durable light source.

Technical specifications

- Lumens (lm): 400
- Height: 150 mm
- Length: 80 mm
- Battery: 200 mAh, 3.7 V, 0.74 Wh
- Connection: Rechargeable USB-C
- IPX4 protection

It features six lighting modes that allow adjusting intensity according to user needs. Includes an adjustable head strap and hat clip, facilitating its use during long shifts. It also incorporates red and green LED lights for additional signals, improving visibility in emergency situations or collaborative work.

It charges easily using the included USB-C cable, ensuring continuous operation without interruptions. Its ergonomic design and functionality make it suitable for professional use and outdoor activities.

Specifications
