Description

T.Ford pliers with light insulation of 150 mm, designed for electrical applications and maintenance in environments where protection against electric currents is required. Manufactured with high-resistance carbon steel, they offer durability and performance under demanding conditions. Their construction includes plastic-insulated handles that provide safety during handling.

Technical Features

- Measurements: 150 mm - 6"
- Number of elements: 4
- Material: carbon steel
- Handles with submerged plastic insulation
- Nickel-plated finish

Their design allows efficient use in electrical work, repairs and installations where sensitive components need to be handled. They are ideal for professionals who require durable and safe tools in industrial or electrical maintenance environments.

Recommended for applications requiring protection against electric discharges, with secure handling thanks to integrated insulation. Presented in blister packs for protection during storage and transport.

Specifications

EAN	8435223408166
Manufacturer	MOTA HERRAMIENTAS
Measures	150 mm - 6"
# Elements	4
