Description

Ford-type pliers with light insulation of 200 mm, designed for electrical applications and maintenance in environments requiring protection against electric currents. Made from high-resistance carbon steel, they offer durability and performance under demanding conditions. Their construction includes plastic insulated handles that ensure safety during use.

Technical Features

- Material: Steel
- Measurements: 200 mm / 8"
- Number of pieces: 1
- Plastic insulated handles
- Nickel-plated finish

Their ergonomic design allows comfortable and precise handling in electronics work, electrical installations, and minor repairs. They are ideal for professionals who require durable and safe tools in low to medium voltage environments.

Recommended for use in environments where low to medium electric currents are handled, facilitating access to tight spaces thanks to their compact length. Presented in blister packs for protection during storage and transport.

Specifications

EAN	8435223408289
Manufacturer	MOTA HERRAMIENTAS
Material	Steel
Measures	200 mm / 8"
# Elements	1
