Description

Schuko plug with 2 poles + earth socket, with a nominal current of 16A and a nominal voltage of 250V~. Designed for residential and commercial electrical installations, it offers a secure and reliable connection in normal environments. Its construction from high-quality thermoplastic material ensures resistance to heat and oxidation, guaranteeing long-term durability.

Technical Specifications

- Color: White
- Rated current: 16A
- Rated voltage: 250V~
- Connection type: Schuko (2 poles + earth socket)
- Cable outlet on the side

Its design allows for simple and quick installation, ideal for applications requiring a safe and durable electrical connection. It is especially useful in environments with multiple connections or cable reuse.

The plug can be installed directly at the point of use without the need for additional tools, making it easy to handle both in new installations and repairs. Its white finish allows seamless integration with modern electrical systems and decorative environments.
