Description

Wall-mounted multiple outlet base with four Schuko 2p+t sockets, two USB ports A and C, surge protection and light switch. Designed for use in residential and industrial installations, it offers a safe and practical solution to connect multiple electronic devices. The included cable is 1.5 meters long and made of h05vv-f 3g1,5 mm², ensuring durability and electrical safety.

Technical Specifications

- Cable length: 1.5 m
- Rated current: 16 A
- Maximum voltage: 250 V~
- Schuko 2p+t sockets
- USB ports type A and C
- Surge protection
- Kid safety
- Light switch
- Aluminum body

Its modular design allows installation both on the wall and surface-mounted, making it ideal for spaces requiring safe and organized access to multiple devices. It is especially useful in work areas or homes with high electrical demand.

The multiple outlet base can be easily installed on any type of wall using the included screws, without

the need for additional tools. Its aluminum body offers resistance to heat and corrosion, maintaining its integrity over years of continuous use.
