Double Embedded Push Button Without Frame 10A 250V Graphite

Brand: SOLERA

Reference: EDM 42046

Double embedded push button without frame, 10A 250V~ 50/60Hz, tilting keys with quick embossing up to 2.5mm², IP40 protection and halogen-free in graphite color.

Description

Double embedded push button without frame of shutter type, designed for residential and industrial electrical installations. It features tilting keys and quick connection up to 2.5 mm², operating at a nominal current of 10 A and voltage of 250 V~ with frequency of 50/60 Hz. Manufactured in graphite material, it offers greater durability and corrosion resistance, as well as being halogen-free, complying with environmental regulations.

Technical specifications

- Nominal current: 10 A
- Nominal voltage: 250 V~
- Frequency: 50/60 Hz
- Quick embossing: up to 2.5 mm²
- IP protection: IP40
- Halogen-free: Yes

Its compact design allows efficient integration in electrical panels and control panels. It is widely used in lighting systems and electric equipment control, facilitating maintenance and installation.

The installation is easily performed by flush mounting without frame, ideal for dry environments and protected from the outside. Its clean and modern finish in graphite color makes it suitable for applications where refined aesthetics are required.

Specifications

EAN	8423220235205
Halogen-free	Yes
Protection	IP40
