### Description

Surface switch designed for residential and commercial installations, with a nominal current of 10 A and nominal voltage of 250 V~. Manufactured in high-quality material that ensures durability and safety in domestic environments. Its IP54 protection makes it resistant to dust and water splashes, suitable for areas with higher exposure to these conditions.

#### Technical Specifications

- nominal current: 10 A
- nominal voltage: 250 V~
- protection: IP54
- color: White
- installation type: Surface

Its modern and clean design integrates easily into any environment, offering a functional solution for electrical control. It is especially useful in spaces where greater resistance to dust or humidity is required.

Installation is simple thanks to its screw fixing system and pre-notching on both the top and bottom sides, facilitating mounting on any type of surface without the need for additional tools.
