Description

Surface switch designed for residential and commercial installations, with a white finish and Simon73 Loft technology. Its compact structure of 7.5 x 7.5 cm allows easy integration into any decorative environment. Made with high-quality materials and halogen-free, it guarantees durability and safety in use.

Technical Specifications

- Dimensions: 7.5 x 7.5 cm
- Color: White
- Protection: IP20
- Connection: Screw terminal
- Operating Temperature: -25 °C to 50 °C
- Halogen-free: Yes

Its retractable design and engraved bell facilitate visual identification and daily handling. It is ideal for applications where aesthetic, functional and reliable control is required in indoor environments.

Installation is simple both on the surface and in a channel, adapting to various mounting needs without compromising performance. Its robust construction ensures long-lasting operation even under varying environmental conditions.
