**Surface Double Switch 10ax
250v White IP20 Simon73 Loft**

Brand: SIMON

Reference: EDM 43041

Double surface switch, 10 A, 250 V~, IP20, white, dimensions 75 x 75 mm, halogen-free, operating temperature range -25°C to +50°C.

[View product online](#)**Description**

Double surface switch with a 10 A capacity and nominal voltage of 250 V~, designed for residential and industrial electrical installations. Its robust white construction ensures durability and compatibility with standard wiring systems. The modern design adapts to any decorative environment without compromising functionality.

Technical Specifications

- Dimensions: 75 x 75 mm
- Capacity: 10 A
- Nominal Voltage: 250 V~
- Protection Level: IP20
- Color: White
- Halogen-free: Yes
- Operating Temperature Range: -25 °C to 50 °C

Its installation is simple both on the surface and in channels, offering flexibility in execution. It is compatible with standard wiring systems and fits perfectly into spaces with minimal required thickness.

This switch provides a reliable solution for electrical control in domestic or commercial environments, combining functionality and aesthetics without compromising safety. Its clean design facilitates integration into any type of electrical panel.

Specifications

High	7.5
Colour	White
EAN	8412852013794
Manufacturer	Simon
Halogen-free	Yes
Measures	7.5 x 7.5
