White Retractable Flat Pass Switch 2-250 V

Brand: SIMON

Reference: EDM 45008

White retractable flat pass switch, 2-250 V, with retractable function. Supports currents up to 16 A and complies with electrical safety regulations. Compact design for conventional panels.

Description

White retractable flat pass switch, designed to control the flow of current in residential and commercial electrical installations. Its technology allows operation within a voltage range of 2 to 250 V, with a retractable function that facilitates its use and improves aesthetics in confined environments. Made from durable material, it offers longevity and safety in electrical applications.

Technical specifications

- Maximum voltage: 250 V
- Operating voltage range: 2 - 250 V
- Color: White
- Design: Flat and retractable

Allows precise control of electrical supply, with simple installation thanks to its standard connectors compatible with typical residential and commercial systems. It is especially useful in environments where a compact and safe solution is required.

It is recommended to follow local electrical safety regulations during commissioning to ensure optimal performance. Its flat design facilitates integration into conventional panels, allowing easy installation without occupying much additional space.

Specifications

Colour	White
EAN	8412852526300
Manufacturer	Simon
