Description

Black hook and loop closure adhesive roll, 20 mm wide and 25 m long. Designed for industrial and automotive applications that require secure and durable fastening without volatile components. Offers weather resistance and temperature resistance up to 80 °C, with strong initial adhesion on plastic, metal, glass and wood.

Technical Features

- Length: 25 m
- Width: 20 mm
- Format: Roll
- Composition: 60% nylon, 40% polyester
- Thermal resistance up to: 80 °C
- Maximum load per 10 cm strip: 500 g

Its design allows reuse up to 15,000 times, making it suitable for frequent adjustment assemblies or temporary fastening. It is especially useful in environments where a quick and effective solution is needed without the need for special tools.

Installation is simple: just unroll the roll and apply it to the desired surface. No complex processes or prior preparation are required, which facilitates its use in the field.

Specifications

EAN	8414419214736
Manufacturer	INOFIX
Format	Rollo
Depth	25 m
