Description

Mini thermoelectric refrigerator of 4 liters with Peltier cell that allows cooling and heating using thermoelectric technology. Designed to maintain controlled temperatures in its interior, adjustable between 18-22°C below or above ambient temperature. It is suitable for keeping cold or hot drinks or food in environments without access to conventional electricity.

Technical specifications

- Cooling power: 36 W
- Heating power: 38 W
- External measurements: 18.3 x 24.7 x 27 cm
- Height: 18.3 cm
- Width: 24.7 cm
- Depth: 27 cm
- Internal capacity: 4 liters

Its efficient operation allows maintaining products at controlled temperature for long periods, facilitating its use on trips, camping or places without electricity. It includes a shelf and minicrate in the door for practical storage.

It can be connected via 12 V DC socket (2 m) or 220-240 V AC (1.8 m), offering flexibility for both home and vehicle use. Its installation is simple and does not require additional tools.

Specifications

High	18.3
Width	2.47
EAN	5903887809092
Manufacturer	ADLER
Measures	18.3 x 2.47 x 27
Depth	27
Capacity (ml)	4000 ml
