Description

Verona drip coffee maker with Intense Flavour Tech technology, developed to maximize the aroma and taste of coffee through a continuous watering system. This machine allows preparing up to 12 cups in a single operation, ideal for home or office use. Its design incorporates a glass carafe with visible level indicator and a reusable washable filter that facilitates maintenance.

Technical Specifications

- Power: 680 W
- Capacity: 12 cups
- Voltage: 230 V ~ 50 Hz
- Glass carafe with capacity indicator
- Removable and washable permanent filter
- Anti-drip system at the spout of the carafe
- Water reservoir with visible level
- Power indicator light
- BPA-free

Thanks to its efficient heating and thermal maintenance, this coffee maker offers fast and consistent preparation. It is especially useful in environments where a constant supply of hot coffee without interruptions is required.

Installation is simple: just fill the water reservoir, place the filter with ground coffee and turn on the

machine. The automatic process ensures that the coffee is ready when finished, maintaining its optimal temperature for nearly an hour.
