High-performance multilube lubricant 500 ml blue

Brand: CRC

Reference: EDM 61112

High-performance multilube lubricant, 500 ml with high penetration and blue color for visual identification in industrial applications. Specialized formula to reduce friction and wear on mechanical parts subjected to intense conditions.

Description

High-performance multilube lubricant with specialized formula for industrial and commercial applications. Provides efficient penetration into hard-to-reach surfaces, reducing wear and heat generation in mechanically stressed parts. Its blue color facilitates visual identification during use, avoiding confusion.

Technical features

- Capacity: 500 ml
- Color: Blue

Prolonged use improves energy efficiency by reducing friction in heavy machinery and metal components. Especially recommended for industrial environments with high temperature or humidity, where rigorous preventive maintenance is required.

Easy to apply on equipment exposed to severe conditions. The blue color allows easy detection, enabling more effective inventory management and preventing errors during lubrication process selection.

Specifications

Colour	Blue
--------	------

EAN	5412386072246
Manufacturer	CRC
Capacity (ml)	500 ml
