School Electrical Kit with Motor and Bulbs 2 m

Brand: EDM

Reference: EDM 64462

School electrical kit with motor and bulbs of 4.5 V, 2 m cable, lamp holder and switch for basic educational experiments.

[View product online](#)

Description

school electrical kit designed for educational projects that allows the creation of simple circuits with basic components. Includes cable, bulbs, lamp holder, switch and motor, all connected in a safe and easy-to-use system. Its configuration facilitates practical learning of the basic operation of electrical circuits.

Technical specifications

- Cable length: 2 m
- Bulbs: 2 units of 4.5 V
- Lamp holders: 2 units
- Switch: 1 unit
- Motor: 1 unit

Its use is recommended in educational environments to experiment with electrical circuits safely and didactically. It facilitates the understanding of fundamental concepts such as current, voltage and switches through hands-on construction.

The installation is easily done thanks to its standard connections between components. It is recommended for use under teacher supervision to ensure proper handling and effective learning of basic electrical principles.

Specifications

EAN	8435464153627
Long	2 m
