Description

Cabinet handle type pull in anodized aluminum with matte finish, designed for doors and drawers of kitchen, bathroom or bedroom furniture. Its construction from a durable material offers longevity and modern aesthetics. The model 2274 features an elegant and functional configuration, ideal for applications where a clean and simple design is required.

Technical Specifications

- Length: 128 mm
- Height: 15 mm
- Width: 1.1 cm
- Depth: 1.7 cm
- Material: Aluminum
- Finish: Matte
- Distance between mounting points: 128 mm

Its design allows for easy installation thanks to the included M4 screws, facilitating placement without additional tools. It is suitable for indoor environments and can withstand humid conditions due to the resistance of anodized aluminum.

It is recommended for use in drawers and cabinet doors where functionality combines with a modern and minimalist appearance. Its compact size makes it ideal for small spaces without compromising its aesthetics or durability.
