Description

The drawer handle type lever in stainless steel is a functional and aesthetic solution for opening doors and drawers. Its modern and elegant design adapts to various environments, both residential and commercial. Made with high-resistance materials, it offers durability and a finish that combines robustness with a refined appearance.

Technical Specifications

- Material: Stainless Steel
- Dimensions: 13.6 x 1.2 x 3.2 cm
- Hole Spacing: 96 mm
- Finish: Aluminum

Its robust construction guarantees long-term use in high-frequency environments, making it ideal for furniture that requires safe and easy opening. It is compatible with standard installations thanks to the included M4 screws.

Installation is quick and does not require additional tools, facilitating its use in renovation projects or new furniture. Its universal design allows easy integration into various types of doors and drawers.
