Description

Transparent window thermometer with suction cup, designed to measure ambient temperature indoors and outdoors. Its durable construction allows quick and safe installation without damaging the glass thanks to the suction cup mounting system. It uses blue liquid instead of mercury to provide accurate readings between -20 and 50 °C, facilitating constant thermal monitoring in various environments.

Technical Specifications

- Length: 15 cm
- Depth: 15 cm
- Temperature Range: -20 to 50 °C
- Material: Transparent with suction cup
- Does not contain mercury

Its compact and functional design makes it suitable for domestic or professional use in environments where constant temperature monitoring is required. It is especially useful in sun-exposed spaces or areas with frequent climate changes.

Installation is simple thanks to its built-in suction cup system, which allows it to be firmly attached to any glass surface without the need for additional tools. Its clear display facilitates accurate reading of thermal values under any environmental conditions.

Specifications

EAN	3369140560018
Manufacturer	STIL
Long	15
Depth	15 cm
