Description

Lightweight irrigation hose, 7 meters long with an internal diameter of 12.5 mm, designed for efficient use in gardening, allotments and green areas. Made from polypropylene (PP) with polyester reinforcement, it offers superior tensile strength and extended durability. Its lightweight construction makes it easy to handle compared to conventional hoses.

Technical specifications

- Length: 7 m
- Internal diameter: 12.5 mm
- Maximum working pressure: 28 bar
- Materials: Polypropylene (PP) and polyester
- Connector: Adapter to tap 1/2 - 3/4 inch
- Includes gun with 8 types of watering

Its resistance allows for prolonged use without deformation or breakage, making it suitable for both small spaces and larger areas. The hose adapts easily to various environments thanks to the standard connection system.

Installation is simple with the included adapter and soft-grip connectors, allowing quick connection to the tap. Its lightweight design makes transportation and storage after use easy, optimizing efficiency in daily watering tasks.

Specifications

Diameter	7 m
EAN	8426375010475
Manufacturer	AQUA CONTROL
Long	7 m
