Description

The drawer handle type model 2279 is a functional and aesthetic solution for opening doors and drawers. Made of aluminum with a matte anodized finish, it offers corrosion resistance and a modern design that adapts to various indoor environments. Its lightweight construction makes installation easy without the need for additional tools.

Technical Specifications

- Material: Aluminum
- Finish: Matte Anodized
- Dimensions: 4.5 x 1 x 1.7 cm
- Distance between mounting holes: 32 mm
- Includes M4 screws for installation

Its compact design and easy assembly make it an ideal choice for kitchen furniture, wardrobes or any surface that requires a functional handle. It is especially suitable for projects where durability and aesthetics are combined without complexity.

Installation is quick thanks to the included screws, allowing simple implementation in spaces with time or resource limitations. Its matte finish offers an elegant appearance that blends well in both modern and classic environments.
