Description

The PP07 free-style door handle is made from stainless steel with a matte finish, offering an elegant and durable solution for both interior and exterior access on standard doors. Its ball-shaped design allows comfortable handling and a minimalist appearance that adapts to various architectural environments. This handle does not include a locking mechanism, facilitating opening from both sides without restrictions.

Technical Specifications

- Material: Stainless Steel
- Width: 35 mm

Installation is simple and it fits standard doors with widths between 35-45 mm and doorknobs of 60-70 mm. It's ideal for use in public or private spaces where unrestricted access is required, such as hallways, commercial premises, or homes.

The handle comes in a blister pack, facilitating storage and transport. Its functional and robust design ensures long-term durability in high-traffic environments while maintaining a high-quality finish and corrosion resistance.
