Product sheet

Nylon Ejector with Gray Damping Base 125 mm

Brand: EDM

Reference: EDM 86258

Nylon ejector with gray damping base IM08, 125 mm long, dimensions 125 x 14.5 x 17.5 mm, designed for extrusion and injection molding, facilitates ejection without damage and features screws for direct installation.

Description

Nylon ejector with gray damping base IM08, designed for industrial applications in extrusion and injection molding processes. Its construction from nylon material offers wear resistance and durability in high-frequency use environments. The damping base reduces mechanical impact during product ejection, improving the quality of the final component and extending its service life.

Technical Specifications

- Material: Nylon
- Color: Gray
- Dimensions: 125 x 14.5 x 17.5 mm
- Length: 125 mm
- Width: 14.5 mm
- Height: 12.5 mm
- Depth: 17.5 mm
- Package Type: Blister

Its design allows precise and controlled movement, optimizing efficiency in processes requiring mechanical accuracy. The damping base minimizes wear on production machines, improving process stability during continuous operations.

Installation is simple thanks to the included screws, allowing direct mounting on molds or extrusion systems. It is recommended for use in industrial environments with high production rates and conditions

that require impact and vibration resistance.

Specifications

Width	1.45
Colour	Grey
EAN	8425998862584
Long	125
Measures	12.5 x 1.45 x 1.75
Depth	1.75
