Nylon Insert Ejector 12 mm 76 mm

Brand: EDM

Reference: EDM 86261

Nylon insert ejector with diameter 12 mm and total length 76 mm, includes integrated damper for quiet operation in extrusion and injection processes.

[View product online](#)

Description

Nylon insert ejector designed for industrial applications in extrusion and injection processes. Its robust construction ensures reliable performance in high-intensity production environments, with silent operation thanks to the integrated damper. The ejector facilitates the removal of molded parts while maintaining their integrity during repeated cycles.

Technical specifications

- Diameter: 12 mm
- Total length: 76 mm
- Material: Nylon
- Format: Blister

Its compact and durable design makes it suitable for molding machines where precision is required. It is especially useful in applications demanding wear resistance and continuous functionality.

It installs easily without the need for additional tools, optimizing setup time. Its silent operation improves working conditions and contributes to greater efficiency in production processes.

Specifications

Diameter	12 mm
----------	-------

EAN	8425998862614
Long	7.6
Material	Nylon
