Insert Ejector Magnet 12 mm x 76 mm Grey

Brand: EDM

Reference: EDM 86262

Insert ejector IM11 with magnet, made of grey nylon. Diameter 12 mm, length 76 mm, blister format. Designed for precise extraction of metal or plastic parts in industrial injection molding processes.

View product online

Description

The insert ejector IM11 with magnet is designed to facilitate the precise extraction of metal or plastic parts during industrial manufacturing processes, especially in injection molds. Made from grey nylon, it offers adequate resistance and easy handling thanks to its ergonomic design. Its magnetic system allows for quick and secure assembly without the need for additional tools, optimizing production times.

Technical Specifications

- Diameter: 12 mm
- Total Length: 76 mm
- Format: Blister
- Material: Nylon with grey finish

Its robust construction ensures durable performance under industrial conditions, making it especially useful for applications requiring efficient and repeated extraction of internal components. It is ideal for sectors such as automotive, electronics, and others where mechanical precision is required.

It is recommended for use in automated or manual manufacturing processes, facilitating maintenance and optimizing production times. The ease of installation and compatibility with various molds make it a practical solution for high-precision industrial operations.

Specifications

Diameter	12 mm
EAN	8425998862621
Long	7.6
Depth	76
