### Description

Extendable security bar designed to provide robust protection on windows and doors without the need for welding or special tools. Manufactured with a square tube coated in polyester powder with a black finish, ensuring durability and corrosion resistance. Its adjustment system allows variable length between 99 and 188 cm, perfectly adapting to window spaces up to 39 cm deep.

#### Technical Specifications

- Length: 188 cm
- Depth: 39 cm
- Material: Square tube coated in polyester powder
- Finish: Black

This bar provides an effective solution against intrusions, ideal for use in residential and commercial environments requiring additional security. Its modular design enables quick and easy installation without the need for special tools.

It is recommended for window spaces with a maximum depth of 39 cm to ensure optimal fit and protection. The bar can be easily extended, allowing adaptation to different security needs according to the required environment.
