Description

Automatic winder for compressed air hose with 1/4" male European connection, inner diameter of 6.5 mm and outer diameter of 10 mm, total length of 10 meters. Designed for industrial and commercial applications requiring efficient handling of low-pressure hoses.

Technical Specifications

- Inner Diameter: 6.5 mm
- Outer Diameter: 10 mm
- Hose Length: 10 m
- Maximum Working Pressure: 12 bar
- Connection Type: 1/4" male European

Its PVC construction resists wear and chemicals, making it suitable for use in demanding environments. It is especially useful for cleaning, maintenance, and compressed air transfer.

The system incorporates an automatic winding mechanism that improves ergonomics and optimizes storage space. Includes a mounting bracket for flat surfaces or metal structures.
