Mini compressed air lubricator brass ¼ inch

Brand: POWERPLUS

Reference: EDM 89154

Mini compressed air lubricator in brass, ¼ inch connection, dimensions 5.9 x 3.2 x 3.3 cm. Generates fine oil mist to keep pneumatic tools lubricated and operating efficiently.

Description

The Mini compressed air lubricator in brass is a compact device designed to inject a fine oil mist into the compressed air flow, ensuring proper operation and extending the lifespan of pneumatic tools. Its brass construction offers resistance and durability in demanding industrial environments.

Technical specifications

- Dimensions: 5.9 x 3.2 x 3.3 cm
- Connection: ¼ inch

This lubricator provides a constant and efficient oil supply, minimizing consumption and optimizing the performance of pneumatic tools. Its compact design makes it easy to integrate into existing systems without requiring complex modifications.

It is recommended for use in industrial applications where continuous lubrication of pneumatic equipment is required, especially in environments with high demand for automated tools. Installation is simple and straightforward, integrating easily into standard compressed air lines.

Specifications

High	5.9
Width	3.2
EAN	5400338041259

Measures	5.9 x 3.2 x 3.3
Depth	3.3
