Description

Construction work boot model thermopile, size 46, designed to provide maximum protection in industrial and construction environments. Made from high-resistance microfiber, it offers durability and comfort during long working hours. Its metal free design ensures safety without metallic components, ideal for environments requiring protection against impacts or cuts.

Technical specifications

- Size: 46
- Material: High-resistance microfiber
- Design: Metal free (no metallic components)
- Sole: Polyurethane and nitrile rubber
- Resistance to: Heat, hydrocarbons and slips

This boot complies with EN 20345 S3 HI CI HRO SRC standard, ensuring performance under demanding conditions. It is especially useful for professionals working in environments requiring thermal and mechanical protection.

The installation is simple and straightforward, comfortably adapting to the foot without the need for additional tools. Recommended for industrial, construction or any environment that requires resistance to high temperatures and mechanical risks.

Specifications

EAN	8427310028036
Manufacturer	ANIBAL
Size	46
