Description

High visibility softshell yellow fluorescent vest designed to improve safety in low-light environments or demanding working conditions. Made with 100% polyester fabric and TPU coating, it offers resistance, breathability, and comfort. Includes two segmented strips that optimize visibility and an interior polar fleece lining with embossed design for better thermal insulation. Complies with EN 20471 standard.

Technical Features

- Size: S
- Material: 100% polyester and TPU
- Interior Lining: Embossed polar fleece
- Visibility Strips: 2 segmented strips
- Pockets: 2 side pockets

Its design makes it suitable for use in industry, construction, and emergency services. Particularly useful for professionals who require visual protection during day or night shifts.

The vest is easy to wash and maintain, ensuring durability under intensive working conditions. Its ergonomic fit ensures long-lasting comfort without compromising safety.
