### Description

The square LED rear tail light 12V with 4 functions offers a modern and efficient solution for vehicle rear lighting. It uses high-quality LED technology, compatible with halogen or incandescent light sources, ensuring greater durability and low energy consumption. This component is designed to meet current vehicle lighting regulations.

#### Technical Specifications

- Power: 5 W per function
- Protection: IP65
- Lamp Type: LED
- Voltage: DC12V

Its design in PC housing and ABS lens provides resistance to the environment, making it suitable for adverse weather conditions. It is compatible with P21/5W and P21W bulbs, facilitating replacement without special tools.

This tail light improves rear visibility of the vehicle, complying with safety standards. Its installation is simple using a screw base, allowing quick and secure mounting on various types of vehicles.

### Specifications

|              |               |
|--------------|---------------|
| EAN          | 8434691129344 |
| Manufacturer | GOODYEAR      |
| Power (W)    | 5             |
| Protection   | IP65          |
| Type of lamp | LED           |
