

## Product sheet

## Pocket Multimeter CAT III 600 V with Color LCD Screen

Brand: PANCONTROL

Reference: EDM 19975

Pocket multimeter with CAT III range up to 600 V, color LCD screen, True RMS function and two-stage NCV detection. Includes test leads and operates with AAA batteries.

### Description

The PocketMeter-2 CAT III 600 V pocket multimeter is a professional technical instrument designed for accurate measurement of voltage, current, and resistance in industrial and professional environments. Its True RMS technology ensures precise measurements in both DC and AC, guaranteeing reliability in complex electrical applications.

#### Technical Specifications

- Measurement range: up to 600 V CAT III
- Color LCD screen
- True RMS function
- Diode test
- Two-stage NCV (non-contact voltage) detection
- Unipolar phase test
- Battery life with 2 AAA batteries (not included)
- Auto power-off
- Integrated LED flashlight

Its compact and durable design makes it ideal for electricians, technicians, and installers who need a reliable meter in the field. It is especially useful for routine electrical inspections or circuit diagnostics.

The ease of use and data retention capabilities allow for accurate measurements without constantly writing down results. Additionally, its NCV detection system helps identify hidden voltages in electrical

installations, improving safety during work.

Specifications

|                  |               |
|------------------|---------------|
| EAN              | 9120037331524 |
| Manufacturer     | PANCONTROL    |
| Battery included | No            |
