Description

Non-calor resistant matte finish paint formulated with special resins to offer maximum thermal resistance on surfaces exposed to high temperatures. Its advanced composition allows it to withstand temperatures up to 500 °C, making it ideal for industrial and domestic applications where extreme heat protection is required.

Technical features

- Resistant to temperatures up to 500 °C
- Matte finish
- Content: 375 ml
- High coverage and easy application

This paint stands out for its ability to protect metal surfaces exposed to heat, such as ovens, fireplaces or industrial components. Its resistant formula guarantees prolonged durability in high-demand environments.

It is recommended to apply on clean and dry surfaces, preferably with a roller or brush. It is important to let the product dry completely before exposing it to high temperatures to achieve optimal technical results.

Specifications

Colour	Black
EAN	8429656091750
Manufacturer	OXIRON
Capacity (ml)	375 ml
