Description

Heat-resistant oxiron-type paint with a matte black finish, formulated with special resins that provide superior thermal resistance up to 500 °C. Designed for applications on surfaces exposed to high temperatures such as ovens, fireplaces, and industrial or domestic elements where thermal protection is required. Its composition allows easy application and provides high coverage, reducing the need for multiple coats.

Technical features

- Thermal resistance up to 500 °C
- Content: 0.75 liters
- Finish: matte
- Color: black

This paint is ideal for repairing surfaces damaged by heat, maintaining their visual and functional integrity. It is especially useful in industrial and domestic environments where thermal durability and aesthetics are required.

It is applied with a roller or brush on clean and dry surfaces. It requires adequate curing time to achieve maximum thermal resistance and optimal performance.

Specifications

Colour	Black
EAN	8429656091767
Manufacturer	OXIRON
Capacity (ml)	750 ml
