Description

Universal replacement remote control specifically designed for LG brand televisions, compatible directly without the need for additional configuration. Its construction in durable material and ergonomic design faithfully reproduces the appearance of the original, allowing intuitive and familiar operation. This remote control offers full functionality with easy handling that adapts to daily user needs.

Technical Features

- Direct compatibility with LG televisions
- Ergonomic design and buttons similar to the original
- Works with 2 AAA batteries (not included)

Its implementation is ideal for users who need a fast and reliable solution to replace the original remote control of their LG TVs. It facilitates access to basic functions such as volume, channel, and power without additional complications.

Installation is immediate: simply insert the AAA batteries and start using it directly. No programming or prior configuration required, making it suitable for both home and professional use in environments where simplicity and effectiveness are valued.
