Description

Emergency light signaling device with high-intensity LED technology, designed for safety applications in low-light conditions. Offers exceptional visibility and a minimum continuous usage time of 4 hours. Its bright red color and reflective material ensure visual effectiveness in critical situations.

Technical Specifications

- Color: Bright Red
- Model Number: 5
- Technology: LED
- Minimum Usage Duration: 4 Hours

Its compact and durable design allows its use in outdoor environments and demanding conditions. It is suitable for signaling on vehicles, industrial installations, or safety lighting systems.

Installation is simple via standard electrical connection. Recommended for situations where a clear and durable visual signal is required, with high visibility under low-light conditions.
