Cooling Wax for Diamond Tools 30 ml

Brand: IZAR

Reference: EDM 61105

Cooling wax for diamond tools, 30 ml. Ideal for drilling high-hardness materials such as porcelain, natural stone, and glazed tiles. Improves drilling speed and extends tool life.

Description

The cooling wax for diamond tools is a specialized product designed to optimize performance during drilling in high-hardness materials like porcelain, natural stone, glazed tiles, and similar materials. Its unique formula facilitates heat dissipation generated during the process, minimizing the risk of overheating and extending the life of diamond tools.

Technical Features

- Content: 30 ml
- Application: Diamond tools for drilling high-hardness materials

This wax improves drilling speed by maintaining optimal temperature during work, increasing efficiency and cutting accuracy. It is especially effective in industrial applications where durability and high performance are required.

Its easy application allows quick and safe use in professional environments. It is recommended to use it with appropriate tools to achieve optimal results in cutting and drilling resistant materials, ensuring more efficient operation and extending tool life.

Specifications

EAN	8424448862549
-----	---------------

Manufacturer	IZAR
Weight (kg)	30,21
