Rost Flash Oxide Freezer Remover 500 ml

Brand: CRC

Reference: EDM 61113

Rost Flash is a liquid oxide freeing and cooling agent, compatible with temperatures down to -40 °C. Its formulation allows for efficient oxide release on metal surfaces, facilitating cleaning processes and surface preparation prior to coatings.

Description

Rost Flash is a liquid oxide remover and cooler specifically formulated for industrial applications requiring rapid oxide removal from metal surfaces. Its cooling capacity enables work at extremely low temperatures, up to -40 °C, improving efficiency and safety during desoxidation processes. The advanced formula is compatible with a wide range of metals and facilitates surface preparation prior to coatings or repairs.

Technical Features

- Volume: 500 ml
- Cooling capacity: up to -40 °C

Its main use is in industrial maintenance, equipment repair, and metal surface cleaning. It is especially useful when it's necessary to avoid thermal damage to sensitive materials during the desoxidation process.

Application is simple: apply directly onto the treated surface following manufacturer instructions. Personal protective equipment is recommended during handling and storage in a cool, dry place to maintain effectiveness.

Specifications

EAN	5412386526589
Manufacturer	CRC
Capacity (ml)	500 ml
