Description

The children's carpentry and marquetry box with workbench is an educational tool designed to encourage manual and creative development in children. This box includes a complete set of steel tools, a workbench with clamping support, drawing materials and wood templates for crafting projects. Its safe and ergonomic design allows little ones to experiment with wood and develop technical skills from an early age.

Technical Features

- Workbench with clamping support to secure pieces during the making process
- Included tools: marquetry saw, small saw, hammer, pliers, screwdriver, round file, flathead screwdriver, square and ruler
- Kit with saw blades and tension key for tool maintenance
- Integrated ring drill in the set
- Watercolor set with brush for complementary artistic activities
- 4 wood templates printed in A6 format
- Includes instruction manual to guide activities

This box is ideal for school workshops, art classes or educational activities focused on creativity and working with materials. Its contents are designed to stimulate imagination and improve fine motor coordination.

Installation is simple: just open the box and start working with the included tools and materials. Adult

supervision is recommended when using sharp or electric tools.
