Description

The 13-piece toy tool set is specially designed to stimulate fine motor development and imagination in children. This set mimics real tools, allowing little ones to explore roles such as builder, mechanic, or craftsman, thus fostering their creativity and manual skills.

Technical Features

- Includes 13 pieces of different types of tools
- Designed for role-playing and simulation games
- Safe and durable materials for children

This toy contributes to the development of hand-eye coordination, concentration, and logical thinking. It is ideal for educational activities both at home and in the classroom, promoting learning through play.

Its organized design in an attractive box facilitates storage and transport. Use under adult supervision is recommended to ensure safety during free or structured play.
