## Description

Wireless bridge designed for remote management of home devices via Wi-Fi and Bluetooth 5.0. Facilitates wireless control of up to 128 units with AES-128 encryption, operating in a thermal range of -10 °C to +45 °C. Its compact design allows discreet integration without compromising performance.

Technical Specifications

- Dimensions: 6.2 x 1.53 x 6.18 cm
- Wireless Technology: Wi-Fi 2.4 GHz and Bluetooth 5.0
- Encryption Level: AES-128
- Adapter Output: 5V = 1A
- Temperature Range: -10 °C to +45 °C
- Humidity Range: 10% - 90% RH (non-condensing)

This device offers an efficient solution for home automation, enabling secure and stable remote control of multiple smart devices. It is especially useful in environments where reliable connectivity between devices is required.

Installation is simple: just connect it to a power source and configure it via the corresponding mobile app. Compatibility with modern standards ensures seamless integration into current home systems.
