Description

Complete kit to prepare high-quality coffee at home, combining a professional coffee grinder with a French press coffee maker. The system allows for uniform and adjustable grinding, while the traditional French press extraction method guarantees intense and aromatic flavors. Designed for demanding users who seek precise control at every step of the preparation process.

Technical Specifications

- Coffee grinder with capacity for 150 g of beans
- French press coffee maker with 1.0-liter capacity
- Material: stainless steel and tempered glass
- Adjustable grinding system for different textures

This kit offers a practical and effective solution for preparing filtered coffee with full control over extraction time. It is ideal for those who value the quality and authentic taste of freshly ground coffee, allowing experimentation with different grind textures according to personal preferences.

Installation is simple and straightforward, requiring only that you follow the manufacturer's instructions. Its compact design facilitates storage in small spaces, while its durable construction ensures long-term use without performance loss.

Specifications

Colour	Stainless steel
Material	ACERO INOXIDABLE Y DIFUSOR CRISTAL TRANSLÚCIDO
