### Description

High-performance rechargeable LED flashlight with COB technology, power of 150 watts and luminous flux of 15,000 lumens. Designed for professional use in demanding environments, it combines an aluminum body with ABS casing for greater durability. Offers four lighting modes: turbo, high, medium and low, with up to 50 hours autonomy in low mode.

### Technical specifications

- Power: 150 W
- Lumens: 15,000 lm
- Material: Aluminum and ABS
- Battery: Lithium 26650 5000 mAh or 9 AA batteries
- Maximum charging time: 6.5 hours
- Autonomy: up to 50 hours in low mode
- Lighting distance: 200 meters
- IP Rating: IPX4
- Light modes: Turbo, High, Medium, Low
- LED Type: COB
- Charging cable: USB-C
- Length: 150 mm

Its ergonomic design allows for prolonged use in difficult conditions. It is suitable for outdoor work,

rescues or nighttime activities where intense and reliable lighting is required.

It is recommended to fully charge before first use and keep the battery level above 20% to extend its useful life. The USB-C charging system allows recharging from any compatible power source, improving versatility in field or domestic environments.
