Wall-mounted split heater 2000 W with oscillation

Brand: Niaros

Reference: GSC 301000026

Wall split heater with maximum power of 2000 W, ideal for areas of 13-20 m². Features oscillation function and adjustable temperature control. Includes LED indicator and IP22 protection.

Description

The white wall split heater 2000W IP22 is an efficient thermal device designed to safely and effectively heat medium-sized spaces. It uses ceramic resistance technology with oscillation function for uniform heat distribution. Its modern white design adapts to various environments, while its control system allows precise temperature adjustment.

Technical Specifications

- Maximum Power: 2000 W
- Voltage: 220-240 V
- Frequency: 50 Hz
- IP Protection: 22
- Main Material: ABS
- Heating Element Type: Ceramic
- Included: Mounting set and 1.7-meter cable
- Operating Modes: Natural, Warm, and Hot
- Power Levels: 2
- Additional Features: LED indicator, remote control, temperature adjustment, oscillation

It is ideal for areas between 13 and 20 square meters. Especially recommended for bedrooms, offices, or living rooms where quick and efficient heating is required.

Installation is simple as it only requires mounting the device on the wall. Additionally, it features child

safety protection for greater security in homes with young children.

Specifications

Frequency	50 Hz
High	13-20 m²
Rated current (A)	10
EAN	8433373096370
Manufacturer	Niaros
Material	ABS
Weight (kg)	2.76
Rated voltage	220-240 V
Nominal voltage (V)	220
Type of cable	Cerámico
