Sealing tape 50 m

Brand: Hantums

Reference: GSC 404060003

Nylon sealing thread with a width of 1 mm and length of 50 m, ideal for plumbing applications. Supports maximum temperatures of 149 °C and minimum temperatures of -20 °C.

Description

The nylon sealing thread is a specialized product designed for sealing applications in hydraulic and mechanical installations. Its construction from durable material allows its use under extreme temperature conditions, ranging from -20 °C to 149 °C, making it ideal for industrial and domestic environments where reliable sealing is required. With a section width of 1 mm and a total length of 50 meters, it offers an efficient and durable solution.

Technical Features

- Width: 1 mm
- Length: 50 m
- Material: Nylon
- Maximum operating temperature: 149 °C
- Minimum operating temperature: -20 °C

It is commonly used in plumbing and applications requiring a tight seal under pressure or in environments subject to extreme thermal changes. It is especially useful for pipe connections, valves and mechanical components that require thermal resistance and durability.

The thread can be easily installed using standard fixing methods, facilitating its handling in various environments. Its packaging in a box allows for organized storage and simple use during application, optimizing the installation process.

Specifications

EAN	8433373097179
Material	Nylon
Measures	1_MILLIMETER
Weight (kg)	0.058
