Rutile Electrodes E6013 Ø4 mm Pack 4 Units

Brand: COFAN

Reference: COF 09005400

Rutile electrodes E6013 Ø4 mm, designed for welding in all positions with AC/DC current. Contain 93 units per box and comply with AWS A5.1: E6013 and EN ISO 2560-A: E 38 0 R 1 2 standards.

Description

Rutile electrodes E6013 Ø4 mm designed for welding in all positions with alternating and direct current. They are ideal for general metal applications, offering stable performance and easy handling thanks to their rutile coating that provides clean and uniform finishes. Their design allows quick slag removal, improving productivity and reducing post-weld cleaning time.

Technical Features

- Diameter: 4 mm
- Current Type: AC/DC
- Units per Box: 93 units
- Package Dimensions: 7.00 cm high x 27.00 cm wide x 38.00 cm deep

They are perfect for maintenance, assembly and light structures where quality bead is required. Their versatility makes them suitable for both repairs and lightweight construction in industrial or workshop environments.

Recommended for use on metal surfaces in various positions, facilitating welding under variable conditions. Compatibility with positive polarity ensures good arc stability and easy ignition during the process.

Specifications

High	7.00
Width	27.00
EAN	8445187204872
Depth	38.00
Current type	AC
